### **IF BUMP AND GRIND**

isn't your scene, but you still love the nightlife, it's time to discover Eve.

Located on the fourth floor of The B.O.B., The Gilmore Collection unveiled this newest addition to The Big Old Building this year. A spectacular special-events facility unlike any other in the area, Eve transforms into a cosmopolitan lounge at 11 p.m. on Friday and Saturday evenings and rivals the best any big city has to offer.

From the moment you step off the elevator, you catch the elegant vibe of Eve. An illuminated glass catwalk leads you through the atrium into the chic interior of the modern lounge, with its intimate lighting, white furniture, corner fireplace and uncomplicated décor. A stunning glass orb chandelier hovers over the bar. Exuding a laidback energy all its own, everything about Eve says class — from the down-tempo rhythms of the DJ-guided music to the large and per-

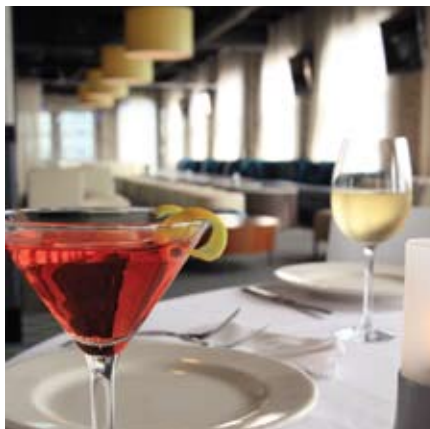

suasive dance floor. For those who really want to impress that special someone or give their friends a night to remember, there are VIP sections of the room with private bottle service that can be rented for the evening. It's clear that smoking, T-shirts and baggy jeans would simply be an affront to this marvelous space.

If a special event is in your future, Eve provides a full-service venue that will captivate your guests. It can accommodate parties from 25 to 300, with two private rooms for smaller gatherings.

Sleek and modern but with a relaxed maturity, Eve kicks cosmopolitan up a notch in Grand Rapids. Come see what it's all about.

Eve's cocktail menu was hand selected and sampled by beverage experts, insuring that as a whole it remains varied, inventive and approachable.

cosmopolitan
